Executive Summary for Government Stakeholders

The **Product Line Profitability & Margin Performance Analysis** provides a data-driven overview of sales, profit, margins, product performance, and division-level performance.

Key Findings

- **Total Sales:** ₹1,41,783.63
- **Gross Profit:** ₹93,442.80
- **Overall Gross Margin:** 65.91%
- **Chocolate Division:** Highest contribution with ₹1,31,692.90 sales and ₹88,824.62 profit.
- **Profit Concentration:** 5 out of 15 products contribute approximately **80% of revenue and profit**.
- **Margin Review:** Products with significant sales but relatively lower margins require further cost and pricing review.
- **Cost Analysis:** Products such as **Kazookles** were identified for further cost-margin investigation.

Management Use

The Streamlit dashboard provides interactive **date, division, margin, and product filters** to support monitoring of profitability, cost patterns, and product concentration.

Overall: The analysis helps stakeholders identify major contributors, margin-risk areas, and products requiring further review for **cost control and pricing decisions**.
